

Memorandum

To: John Hohman, City Manager

From: Chelsie Taylor, Finance Director

Date: March 15, 2024

Re: Finance Department Activity Report – December 2023

Following is information pertaining to Finance Department activities through the end of December 2023 and included herein is an updated 2023 Budget to Actual Comparison of Revenues and Expenditures through the end of December.

2023 Year-end Process

Although December has come and gone, we anticipate we will receive a significant number of invoices in January and February from vendors who delivered goods and services during the latter part of 2023. Consequently, the expenditure figures reported herein will likely change materially in subsequent updates. By the same token, the revenues figures reported at this point will also change materially as we await State distributions of shared revenues in January and February that date back to 2023. With that said, we are in the preliminary phases of closing the 2023 books and hope to have this process complete by the end of March. Following the closing of the books, we will begin the process of preparing our annual financial report which will be finished by the end of May. We hope to have the State Auditor's Office on site by early June to begin the audit of 2023.

Lodging Tax

The schedule leading to awarding funds is as follows:

- September 1 Letters mailed to agencies that have historically received funding, media release to City website and notice to newspapers
- September 29 Grant applications due at City Hall
- October 26 Grant applicant presentations to lodging tax advisory committee
- November 14 Admin report to Council on results of lodging tax advisory committee meeting
- December 12 City Council motion consideration: Award lodging tax for 2024

Fee Resolution

As a part of preparing the annual budget, City Departments are asked to review the Master Fee Schedule that is currently in place and determine whether changes in fees charged and/or language used in the governing resolution should be altered. This leads to an annual update to the fee resolution that sets fees for the following year. The calendar leading to the adoption of the resolution setting 2024 fees is as follows:

- December 5 Admin report on proposed changes to the fee resolution
- December 19 Council adoption of the fee resolution

Budget to Actual Comparison Report

A report reflecting 2023 Budget to Actual Revenues and Expenditures for those funds for which a 2023 Budget was adopted is located on pages 5 through 18. Because we attempt to provide this information in a timely manner, this report is prepared from records that are not formally closed by the Finance Department at month end or reconciled to bank records. Although it is realistic to expect the figures will change over subsequent weeks, I believe the report is materially accurate.

We've included the following information in the report:

- Revenues by source for all funds, and expenditures by department in the General Fund and by type in all other funds.
- A breakdown between recurring and nonrecurring revenues and expenditures in the General Fund, Street O&M Fund and Stormwater Fund.
- The change in fund balance including beginning and ending figures. The beginning fund balance figures are those that are reflected in our 2022 Annual Financial Report.
- Columns of information include:
 - The 2023 Budget
 - December 2023 activity
 - Cumulative 2023 activity through December 2023
 - Budget remaining in terms of dollars
 - The percent of budgeted revenue collected or budgeted expenditures disbursed

A few points related to the General Fund #001 (page 5):

Recurring revenues collections are currently at 105.81% of the amount budgeted with 100.00% of the year elapsed.

- Property taxes are paid to Spokane County in two installments each year on April 30 and October 31 and are then remitted to the City primarily in May and November with lesser amounts typically remitted in June and December. Property taxes received thus far in 2023 are \$13,459,913 or 99.19% of the amount budgeted. In January we will receive one final payment related to 2023 collections.
- Sales tax collections represent only eleven months of collections thus far because taxes collected in December are not remitted to the City by the State until the latter part of January. Collections are currently at \$29,973,215 or 98.10% of the amount budgeted.
- Gambling taxes are at \$433,467 or 113.18% of the amount budgeted. Gambling taxes are paid quarterly with fourth quarter payments due by January 31st.
- Franchise Fee and Business Registration revenues are typically received in the month following a calendar year quarter. So far in 2023 we have received \$1,072,447 or 88.27% of the amount budgeted. Fourth quarter franchise fees will be received in January, and I anticipate actual revenues will approximate the budget estimate at that point.
- State shared revenues are composed of State of Washington distributions that include items such as liquor board profits, liquor excise tax, streamlined sales tax mitigation and criminal justice monies. Most of these revenues are paid by the State in the month following a calendar quarter. Through December we've received remittances totaling \$2,235,440 or 95.49% of the amount budgeted. We will receive an additional payment related to the fourth quarter of 2023 in January.
- Fines and forfeitures revenues are composed of monthly remittances from Spokane County with payments made in the month following the actual assessment of a fine and false alarm fees. Through December we've received remittances through the month of November with receipts of \$467,562 or 90.16% of the amount budgeted.

- Community and Public Works service revenues are largely composed of building permit and plan review fees as well as right of way permits. Revenues are currently at \$3,855,692 or 122.56% of the amount budgeted.
- Recreation program revenues are composed of revenues generated by the variety of parks and recreation programs including classes, swimming pools (in-season), and CenterPlace. Currently, revenues total \$922,712 or 147.52% of the amount budgeted.

Recurring expenditures are currently at \$53,246,905 or 99.03% of the amount budgeted with 100.00% of the year elapsed.

Investments (page 19)

Investments at December 31 total \$114,619,429 and are composed of \$109,263,650 in the Washington State Local Government Investment Pool and \$5,355,779 in bank CDs.

Total Sales Tax Receipts (page 20)

Total sales tax receipts reflect State remittances through December and total \$33,973,141 including general, criminal justice, and public safety taxes. This figure is \$323,725 or 0.96% greater than the same eleven-month period in 2022.

Economic Indicators (pages 21 – 23)

The following economic indicators provide information pertaining to three different sources of tax revenue that provide a good gauge of the health and direction of the overall economy.

1. Sales taxes (page 21) provide a sense of how much individuals and businesses are spending on the purchase of goods.
2. Hotel / Motel taxes (page 22) provide us with a sense of overnight stays and visits to our area by tourists or business travelers.
3. Real Estate Excise taxes (page 23) provide us with a sense of real estate sales.

Page 21 provides a 10-year history of general sales tax receipts (not including public safety or criminal justice) with monthly detail beginning January 2014.

- Compared with calendar year 2022, 2023 collections have increased by \$175,874 or 0.54%.
- Tax receipts reached an all-time high in 2023 of \$32,522,920, besting the previous record year of 2022 when \$32,347,046 was collected.

Page 22 provides a 10-year history of hotel/motel tax receipts with monthly detail beginning January 2014.

- Compared with calendar year 2022, 2023 collections have increased by \$3,992 or 0.44%.
- Collections reached an all-time high in 2023 of \$905,678, besting the previous record of \$901,686 in 2022.

Page 23 provides a 10-year history of real estate excise tax receipts with monthly detail beginning January 2014.

- Compared with calendar year 2022, 2023 collections have decreased by \$2,223,587 or 39.85%.
- Collections appear to be more in line with historical amounts rather than the historic highs seen in 2021 and 2022.
- Collections reached an all-time high in 2021 of \$6,218,227.

Debt Capacity and Bonds Outstanding (page 24)

This page provides information on the City's debt capacity, or the dollar amount of General Obligation (G.O.) Bonds the City may issue, as well as an amortization schedule of the bonds the City currently has outstanding.

- The maximum amount of G.O. bonds the City may issue is determined by the assessed value for property taxes which for 2023 is \$16,292,740,920. Following the December 1, 2023 debt service payments, the City has \$9,085,000 of nonvoted G.O. bonds outstanding which represents 3.72% of our nonvoted bond capacity, and 0.74% of our total debt capacity for all types of bonds. Of this amount:
 - \$3,040,000 remains on bonds issued for the construction of CenterPlace. These bonds are repaid with a portion of the 1/10 of 1% sales tax that is collected by the Spokane Public Facilities District.
 - \$0 remains on bonds issued for road and street improvements around CenterPlace. The bonds were repaid with a portion of the real estate excise tax collected by the City.
 - \$6,045,000 remains on bonds issued for construction of the new City Hall. The bonds are repaid with General Fund revenues.

Street Fund Revenue Sources (pages 25 and 26)

The last two charts reflect a history for the two primary sources of revenue in Street Fund #101. These include:

Page 25 provides a 10-year history of Motor Vehicle Fuel Tax collections with monthly detail beginning January 2014.

- Compared with calendar year 2022, 2023 collections have increased by \$17,751 or 0.91%.
- Tax receipts peaked in 2007 at approximately \$2.1 million and have generally ranged around \$2 million in the years 2014 through 2023.

Page 26 provides a 10-year history of Telephone Utility Tax collections with monthly detail beginning January 2014.

- Compared with 2022, 2023 collections have decreased by \$27,771 or 2.77%. Unlike tax revenues collected by the State and remitted monthly, these taxes are paid to the City directly by the service provider. Consequently, there is not a "clean cutoff" in terms of when a vendor pays the tax.
- Tax receipts peaked in 2009 at \$3,054,473 and have decreased each year since due to what we suspect is the reduction in land lines by individual households as well as a reallocation of revenues from voice plans to data plans by cell phone companies.

Sales tax receipts reported here reflect remittances for general sales tax, criminal justice sales tax and public safety tax.

The sales tax rate for retail sales transacted within the boundaries of the City of Spokane Valley is 8.9%. The tax that is paid by a purchaser at the point of sale is remitted by the vendor to the Washington State Department of Revenue who then remits the taxes back to the various agencies that have imposed the tax. The allocation of the total 8.9% tax rate to the agencies is as follows:

- State of Washington	6.50%	
- City of Spokane Valley	0.85%	
- Spokane County	0.15%	
- Spokane Public Facilities District	0.10% *	
- Criminal Justice	0.10%	
- Public Safety	0.10% *	
- Juvenile Jail	0.10% *	
- Mental Health	0.10% *	
- Law Enforcement Communications	0.10% *	
- Spokane Transit Authority	0.80% *	
	<u>8.90%</u>	
		2.40% local tax

* Indicates voter approved sales taxes

In addition to the .85% reported above that the City receives, we also receive a portion of the Criminal Justice and Public Safety sales taxes. The distribution of those taxes is computed as follows:

Criminal Justice: The tax is assessed county-wide and of the total collected, the State distributes 10% of the receipts to Spokane County, with the remainder allocated on a per capita basis to the County and the cities within the County.

Public Safety: The tax is assessed county-wide and of the total collected, the State distributes 60% of the receipts to Spokane County, with the remainder allocated on a per capita basis to the cities within the County.
